System/DepartmentStoreManagementSystem  
/translate.h

```
graph BT; A["C:/hw3/DepartmentStoreManagementSystem/DepartmentStoreManagementSystem/translate.h"] <-- B["C:/hw3/DepartmentStoreManagementSystem/DepartmentStoreManagementSystem/DepartmentStoreManagementSystem.c"]; A <-- C["C:/hw3/DepartmentStoreManagementSystem/DepartmentStoreManagementSystem/translate.c"]
```

The diagram illustrates a dependency relationship between three files. At the top is a header file, 'translate.h', which is shaded gray. Below it are two source files: 'DepartmentStoreManagementSystem.c' on the left and 'translate.c' on the right. Two blue arrows point from the source files up to the header file, indicating that both source files include or depend on the header file.
